Over RM5m Macau scam losses in Kelantan

KOTA BARU: The prevalence of Macau scam syndicates in Kelantan is a cause for concern following the increase in cases this year, said Kelantan police chief Deputy Commissioner Shafien Mamat. Shafien said from January to early August, the police recorded losses of more than RM5 million due to the syndicates in the state. "This shows the level of public awareness about the syndicates is still low... people are credulous and easily deceived by calls and threats made by these syndicates. People in the state are advised not to be afraid, not to be credulous and easily swayed when receiving calls from strangers, who may be involved in crime. People must check with the authorities or related parties first," he said. **Bernama**
